Dear Bob;

Thank you for the fine job your company has done for us at Rothenberger USA. I was experiencing problems with another supplier and Kinetic Die Casting (KDC) Came through for me.

The other supplier had problems with prices as well as with deliveries but Kinetic Die Casting used the current die we sent them and made many good quality parts.

I look forward to purchasing competitively priced, good quality parts from KDC . I look forward to a pleasant and long business relationship in the future.

Sincerely,

Pamela Nelson
